## Section 1. Business Introduction

### 1. Business Goal/Vision :

*SkillStitch aims to provide personalized creative and digital services while continuously expanding by integrating new skills each semester. My vision is to build SkillStitch into a multi-skilled service brand that evolves as I master new abilities, from handmade artwork to professional digital solutions.*

### 2. Business Concept :

*SkillStitch is a skill-based creative business offering handmade canvas paintings and custom art products crafted with attention to detail, quality, and personalization. The brand focuses on creating unique, meaningful, and affordable pieces ideal for gifting, décor, and special occasions. SkillStitch currently offers three curated product packs:*

- ***Simple Pack (₹200)**: Small 4×4 inch round/square canvases featuring cute and minimal designs perfect for gifting and desk décor.*
- ***Standard Pack (₹500)**: Hand-painted 6×6 inch scenic canvases that are aesthetic, detailed, and visually charming.*
- ***Premium Pack (₹800)**: Customized acrylic paintings with rich textures, vibrant colours, and a gallery-level finish.*

*As I progress in my BTech CSE journey, SkillStitch will continue to expand. After each semester, I will integrate newly learned skills—such as coding, website editing, UI/UX basics, template designing, and other digital services. This will transform SkillStitch into a hybrid creative + technical service platform that caters to students, professionals, families, and small businesses.*

## Section 2. Product/Service Details

*Give basic information about what you sell or offer.*

**1. Product/Service Name:**

**SkillStitch - Simple Pack (4x4 mini hand painted canvas painting).**

**2. Description:**

A small, cute 4×4 inch round or square hand-painted canvas featuring minimal and adorable designs perfect for gifting and desk décor.

**3. Price/Cost:**

₹200 per piece

**4. How you made/got the product:**

To create the Simple Pack mini canvas, I first gathered all essential materials—premium acrylic paints, fine paint brushes, a 4×4 inch canvas board, a mixing palette and glossy varnish. I began by preparing the canvas and selecting a colour theme suitable for a cute minimal design. Using light base coats, I built the background and then added small details with precision brushes. After completing the artwork, I allowed it to dry naturally and finally applied a thin layer of glossy varnish to protect the colours and give the painting a polished finish.

**5. What makes it different/special (USP):**

- Affordable, customizable and handmade art for students and gift buyers
- Cute, minimal style that is perfect for small spaces
- Handmade, personalized themes available on request

**6. Product/Service Photos:**

## Section 4. Experience and Learning

- **Key Learnings:**

I learned that managing expenses carefully and understanding where every rupee is spent is extremely important for running a sustainable business. I also understood how crucial it is to set the right prices by balancing cost, effort, and customer expectations. Additionally, I learned how presentation, communication, and consistency play a big role in attracting customers.

- **Challenges Faced & How You Solved Them:**

One of the major challenges was calculating the correct cost price and deciding selling prices without undercharging. I solved this by listing all material costs, dividing them per painting, and analysing time and effort spent. Another challenge was getting customers initially, which I solved by improving my product photos and posting regularly on Instagram and WhatsApp.

- **Suggestions for the Program/App/Mentorship :**

The program was very helpful, but adding more real-life student business examples and short interactive sessions on marketing and pricing would make it even better. More guidance on digital selling platforms would also help students grow their businesses practically.

I

## Section 5. Plans for Next Semester

*Think about what you want to do next in your business or personal learning.*

- **Business Improvements/New Ideas:**

Next semester, I plan to expand SkillStitch by introducing new customizable art themes and improving finishing quality with better materials. I also aim to add digital services such as basic website editing, basic design templates, and **coding** tasks aligned my BTech CSE course

- **Marketing or Sales Strategy:**

I will focus on growing my Instagram page by posting regularly, using reels, and sharing behind-the-scenes content. I also plan to promote my business through WhatsApp status, local groups, and student communities. Additionally, I will create clear pricing posts and bundle offers to attract more customers.

- **Personal Goals:**

I aim to improve my time management, learn new technical skills each semester, and maintain consistency in both studies and SkillStitch. I also want to build confidence in communication, handle customers more professionally, and gradually prepare to offer both creative and tech-based services
in the future.
